

Southern Mensurationists 2011 Conference Schedule

Crowne Plaza Downtown, Memphis TN, Oct. 23-25, 2011

Sunday, October 23, 2011

Start Time	Title	Authors
5:00 PM	Registration Opens	Ray Souter and Lewis Jordan

Monday, October 24, 2011

Start Time	Title	Authors
7:45 AM	Registration Continues	Ray Souter and Lewis Jordan
8:00 AM	Welcome Day 1	Ray Souter and Lewis Jordan
8:15 AM	Using Hoerl'S Special Function To Extend The Crossett Experimental Forest'S Local Cubic Volume Table	Don C. Bragg
8:45 AM	Predicting future height trajectory of a new loblolly pine clone: Mixed effects model calibration?	Charles O. Sabatia and Harold E. Burkhart
9:15 AM	Comparison of Dominant Height Definitions Used in Yield Predictions	Micky Allen and Dean Coble
9:45 AM	Height versus dbh modeling that incorporates thinning	Mike Clutter
10:15 AM	Morning Break Day 1	Break
10:45 AM	Using bootstrapping techniques to assess Prescribed Fire's Role in Long Leaf Pine Forest Carbon Dynamics	Christina Staudhammer, Gregory Starr, Robert Mitchell
11:15 AM	Relating stem growth and form to crown length dynamics	Harry T. Valentine, Annikki Mäkelä, Edwin J. Green, Ralph Amateis, Harri Mäkinen, Mark J. Ducey
12:00 PM	Luncheon	Luncheon
1:00 PM	Assessment of the sampling assumptions used to develop stand and stock tables	Bogdan M. Strimbu, David W. Long
1:30 PM	Bivariate Mixed-Effects Taper Models	Lewis Charles Jordan, Finto Antony, Quang Cao
2:00 PM	Deriving a Diameter Distribution from Stand Table Data	Quang V. Cao and Dean W. Coble
2:30 PM	Lessons Learned From Writing a Book on Forest Growth and Yield Modeling	Aaron Weiskittel, David W. Hann, John A. Kershaw, and Jerry K. Vanclay
3:00 PM	Afternoon Break Day 1	Break
3:30 PM	Modeling the effect of initial planting density on within tree variation in stiffness of loblolly pine	Finto Antony, Lewis Jordan, Laurence R. Schimleck, Richard F. Daniels & Alex Clark III
4:00 PM	The effects of genetic homogeneity on sawtimber potential and productivity in loblolly pine.	Josh Steiger and Bronson Bullock
4:15 PM	Economic assessment of stand-level treatments for southern pine beetle prevention	Nate Naumann and Bronson Bullock
4:30 PM	Estimating The Probability Of Survival Of Individual Shortleaf Pine Trees	Sudip Shrestha, Thomas B. Lynch, Difei Zhang, James M. Guldin
5:00 PM	Cultural Intensity and Planting Density Impact on Aboveground Biomass, Nutrient Contents and Energy of Loblolly Pine Stands	Dehai Zhao, M. Kane, D. Markewitz, B. Borders, and D. Greene
5:30 PM	Wrap Up Day 1	Ray Souter and Lewis Jordan

Southern Mensurationists 2011 Conference Schedule

Crowne Plaza Downtown, Memphis TN, Oct. 23-25, 2011

Tuesday, October 25, 2011

Start Time	Title	Authors
8:00 AM	Welcome Day 2	Ray Souter and Lewis Jordan
8:15 AM	Modeling Tip Moth Protection in Loblolly Pine Plantations	Trevor Walker
8:45 AM	Spatial characterization of within-stand variation in southeast forests	Kyle Marion and Bronson Bullock
9:00 AM	Spatial autocorrelation of above-ground forest biomass in Labanan Concession Forest, East Kalimantan, Indonesia	Taek Kim and Bronson Bullock
9:15 AM	Algorithmic Representation of Expert Selection for Harvest During Thinning of Bottomland Hardwood Forests	R.A. Souter and J.S. Meadows
9:45 AM	Access to Biometric Information	David R. Larsen
10:15 AM	Morning Break Day 2	Break
10:45 AM	The Strub Challenge	Lewis Charles Jordan
11:15 AM	Why model growth instead of yield?	Mike Strub
11:45 AM	Wrap Up Day 2	Ray Souter and Lewis Jordan
12:00 PM	Future Buisness	Ray Souter and Lewis Jordan
